

# Child Protective Services: Intake

## **2103.24 Reporting Procedures Following Placement Activities**

### **Requirement**

Report service activity as both CPS **and** Placement for a child in custody for less than thirty-one (31) days, who returns to the legal custody of the parent/legal guardian.

### **Procedures/Practice Issues**

For some families, where custody is returned to the parent in less than 31 days, a need for ongoing protective services based on risk level remains. If the CPS case was closed during this period and a placement case was opened for each child, reopen the CPS case under the primary caretaker's name and close the placement cases.
